"REAL-TIME OPERATIONAL EXCELLENCE"

FLEX SMARTER SOLUTIONS

FLAWLESS EXECUTION THROUGH DIGITAL MASTERY

We will help you to maximise your organisation's Return on operational Assets (RooA). This means that we enable you to operate your assets as effectively and efficiently as possible, while also ensuring they are healthy and safe. In this way, you reduce your operational costs and risks, becoming far more profitable as a result.

We can achieve this through one or more of our six "smARTE solutions" that have been built using a combination of our leading-edge, digital technologies and are focused around our "Real-Time Operational Excellence (RTE)" mantra.

SMARTER KEYS & LOCKERS

KEY & LOCKER MANAGEMENT FOR THE RETAIL INDUSTRY

Optimal key & device management is critical to the retail industry

Many organisations, including retail, have critical assets that require physical keys to access them. International research shows that on average it takes retail staff members six minutes to find a key or working device before they can start working. That is equal to 42 minutes of productive time, every week, for each employee, which in return equates to significant productivity and financial losses for the organisation every year.

It is therefore crucial for retailers to implement intelligent key and device management solutions that will help them to manage their critical keys and operational assets more effectively. Ensuring only authorised people have access at specific times means that there is accountability, auditability, and security of the assets that are essential to the success of operations and the organisation as a whole.

Our Solution:

FLEX digital is the market leader in smart key, device and equipment management, using a combination of innovative digital technologies. Our smarter Key & Locker solutions consist of multiple options:

1. Key Cabinets & Secure Lockers

We provide intelligent, integrated key and device management cabinets and lockers that give you complete control and peace-of-mind when it comes to your critical operational assets and mobile enterprise devices.

2. Key & Device Rooms

We also offer an intelligent key & device management room solution in cases where there are a large number of keys and devices that require secure management and control. This involves tagging each key and mobile enterprise device with an RFID or BLE tag to identify, control access to, and track each individual item. Our smarter Key Rooms can also be seamlessly integrated with our revolutionary smarter Access solution that employs Artificial Intelligence (AI) to manage and log access to each room.

SMARTE KEYS & LOCKERS

THE SMARTE SOLUTION:

THE OPERATIONAL BENEFITS:

- Improve shift start-up times and employee productivity by up to **50%**
- Increase employee accountability by up to **85%**
- Enhance auditability and security of the assets that the keys are protecting by up to **95%**
- Reduce the number of keys and devices returned late or not at all by up to **80%**
- Decrease the unauthorised access to keys, devices, equipment, specific sites, facilities etc. by up to **95%**
- Send real-time alerts to security and management if any of the predefined business rules are violated.

SMARTE KEYS & LOCKERS

THE POSITIVE FINANCIAL IMPACT
