SMARTE KEY & LOCKER MANAGEMENT

AUTOMOTIVE

"REAL-TIME OPERATIONAL EXCELLENCE"

FLEX SMARTER SOLUTIONS

FLAWLESS EXECUTION THROUGH DIGITAL MASTERY

We will help you to maximise your organisation's Return on operational Assets (RooA). This means that we enable you to operate your assets as effectively and efficiently as possible, while also ensuring they are healthy and safe. In this way, you reduce your operational costs and risks, becoming far more profitable as a result.

We can achieve this through one or more of our six "smARTE solutions" that have been built using a combination of our leading-edge, digital technologies and are focused around our "Real-Time Operational Excellence (RTE)" mantra.

$$\frac{\text{Operating Income}}{\text{Average Operating Assets}} = \text{RETURN ON OPERATING ASSETS} \uparrow$$

SMART E KEYS & LOCKERS

KEY & LOCKER MANAGEMENT FOR THE AUTOMOTIVE INDUSTRY

Effectively managing your keys, enterprise mobile devices, and equipment is critical to your operations

The automotive industry comprises a wide range of organisations that are involved in the manufacturing, assembly, wholesaling, retailing, renting and maintaining of motor vehicles and related parts. These organisations utilise critical assets in their operations that must be managed and secured effectively. This could be anything from portable devices, equipment, tools, machinery, vehicles, stock rooms, chemical rooms, plant rooms, remote depots etc.

If keys and operational assets are not managed properly, it creates numerous risks and inefficiencies for the organisation. It is therefore crucial for every organisation in the automotive industry to implement an effective and efficient key, device and equipment management solution. Ensuring only authorised people have access at specific times means that there is accountability, auditability, and security of the assets that are essential to the success of operations and the organisation as a whole.

Our Solution:

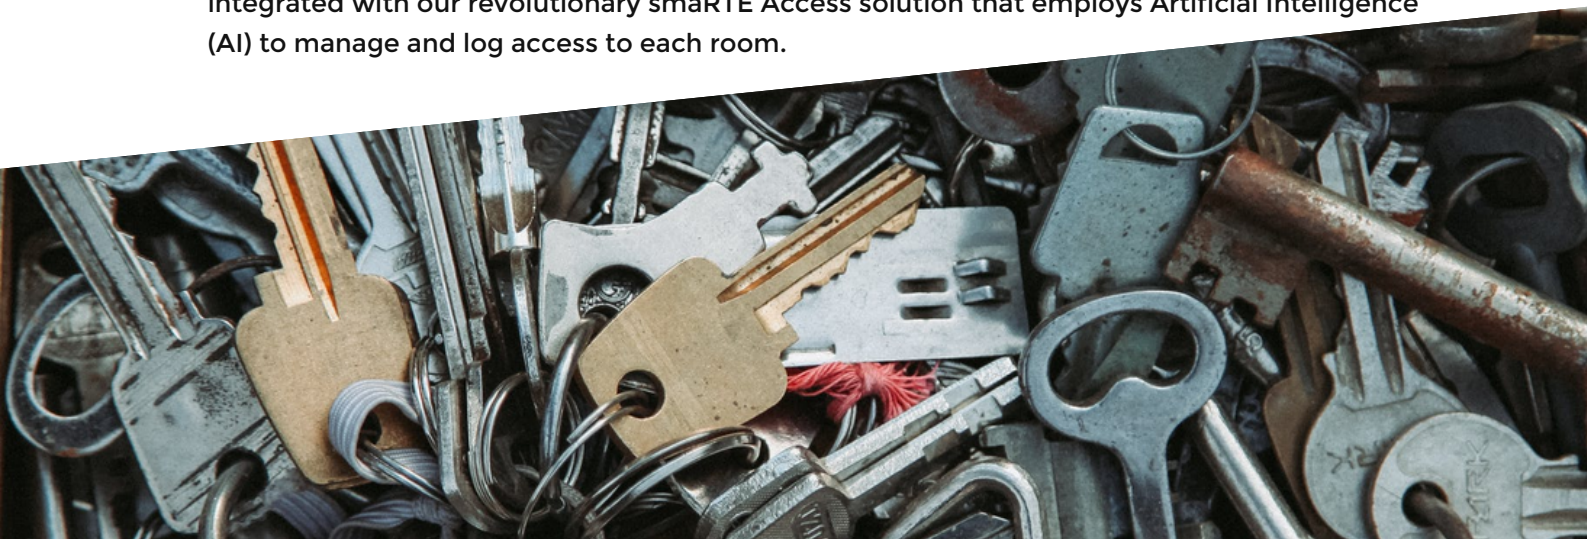

FLEX digital is the market leader in smart key, device and equipment management, using a combination of innovative digital technologies. Our smaRTE Key & Locker solutions include:

1. Key Cabinets & Secure Lockers

We provide intelligent, integrated key and device management cabinets and lockers that give you complete control and peace-of-mind when it comes to your critical operational assets and mobile enterprise devices.

2. Key Rooms

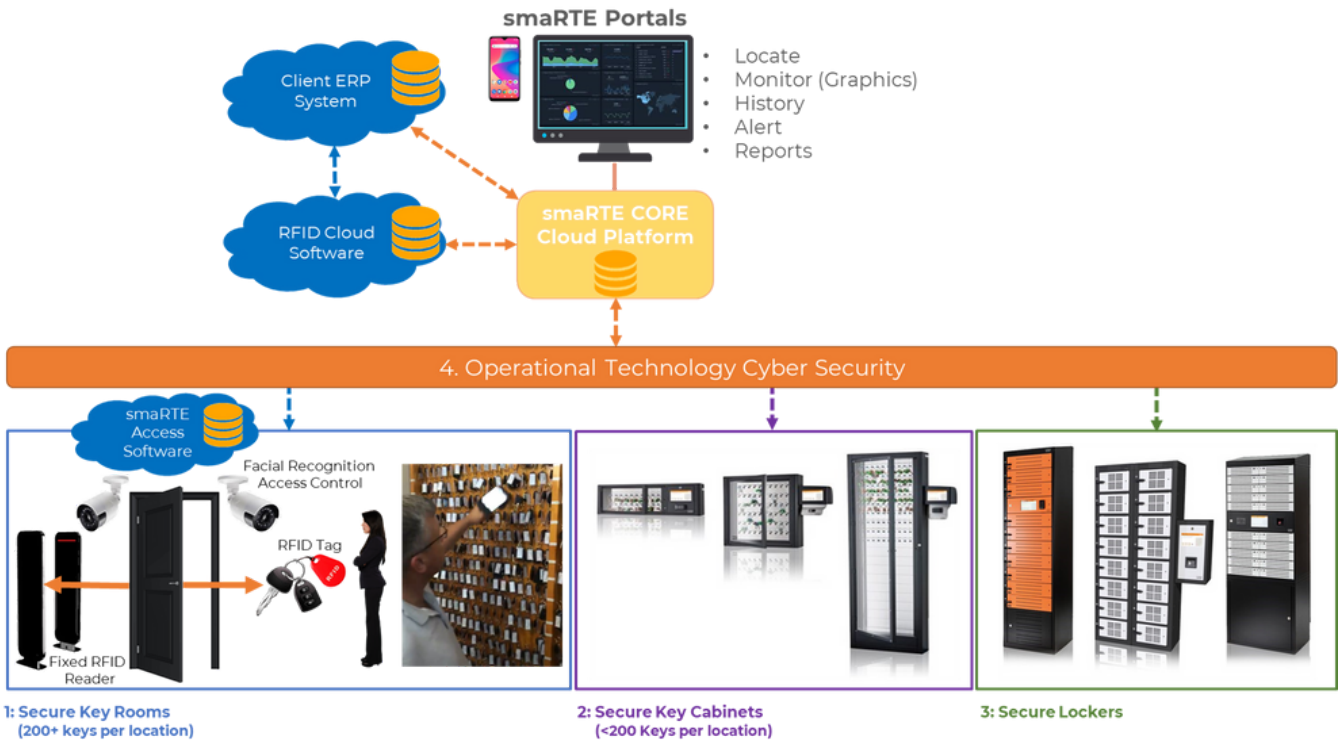

We also offer an intelligent key & device management room solution in cases where there are a large number of keys and devices that require secure management and control. This involves tagging each key and mobile enterprise device with an RFID or BLE tag to identify, control access to, and track each individual item. Our smaRTE Key Rooms can also be seamlessly integrated with our revolutionary smaRTE Access solution that employs Artificial Intelligence (AI) to manage and log access to each room.

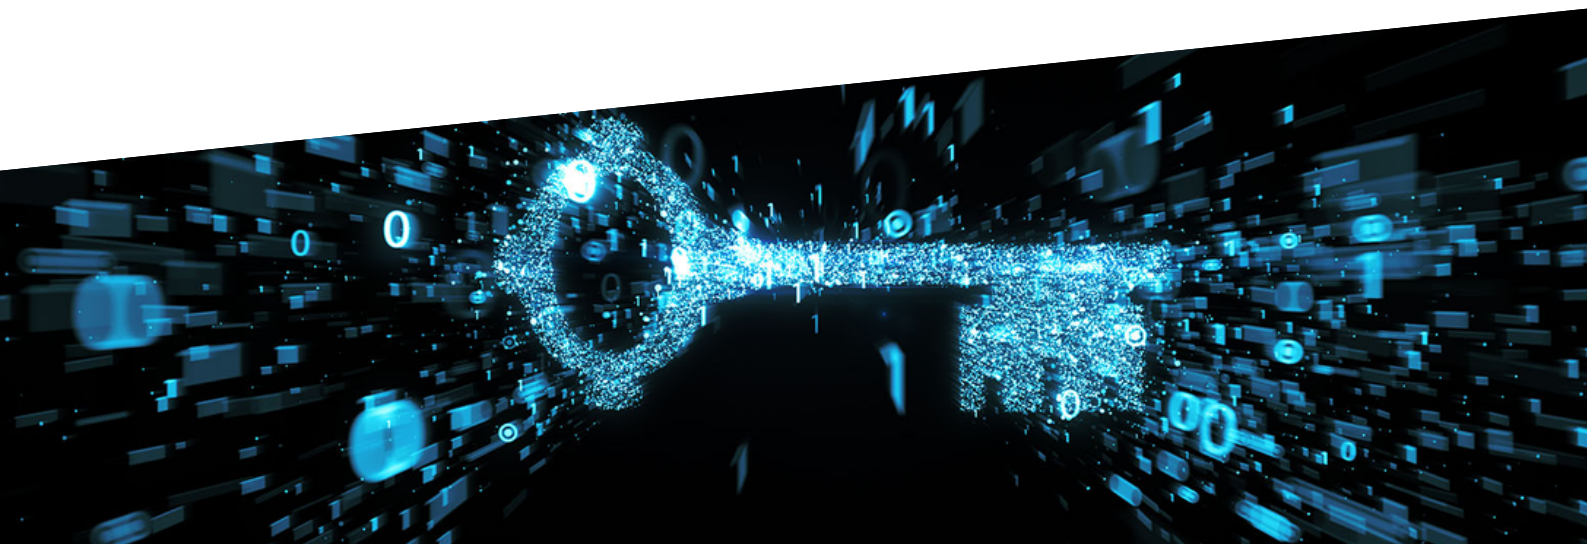

SMARTE KEYS & LOCKERS

THE SMARTE SOLUTION:

THE OPERATIONAL BENEFITS:

- Improve shift start-up times and employee productivity by up to **50%**
- Increase employee accountability by up to **85%**
