SMARTE KEY & LOCKER MANAGEMENT

SMART BUILDINGS & CITIES

"REAL-TIME OPERATIONAL EXCELLENCE"

FLEX SMARTE SOLUTIONS

FLAWLESS EXECUTION THROUGH DIGITAL MASTERY

We will help you to maximise your organisation's Return on operational Assets (RooA). This means that we enable you to operate your assets as effectively and efficiently as possible, while also ensuring they are healthy and safe. In this way, you reduce your operational costs and risks, becoming far more profitable as a result.

We can achieve this through one or more of our six "smaRTE solutions" that have been built using a combination of our leading-edge, digital technologies and are focused around our "Real-Time Operational Excellence (RTE)" mantra.

$$\frac{\text{Operating Income}}{\text{Average Operating Assets}} = \text{RETURN ON OPERATING ASSETS} \uparrow$$

SMARTER KEYS & LOCKERS

KEY & LOCKER MANAGEMENT FOR SMART BUILDINGS & CITIES

Effective key & locker management is critical for smart buildings & cities

Whether it is a single commercial building or a whole city, there are a number of operational assets that keep them operating effectively, efficiently, comfortably and safely. These smart buildings and cities all have critical assets that require physical keys to access them, as well as enterprise mobile devices that must be managed effectively.

It is therefore crucial for every smart building and smart city to implement intelligent key & locker management solutions that will help to manage critical keys, devices and operational assets more effectively. Ensuring only authorised people have access at specific times means that there is accountability, auditability, and security of the assets. This is essential to the safety of employees and the successful operations of smart buildings and cities as a whole.

Our Solution:

FLEX digital is the market leader in smart key, device and equipment management for smart buildings and cities, using a combination of innovative digital technologies. Our smarter Key & Locker solutions include:

1. Key Cabinets & Secure Lockers

We provide intelligent, integrated key and device management cabinets and lockers that give you complete control and peace-of-mind when it comes to your critical operational assets and mobile enterprise devices.

2. Key Rooms

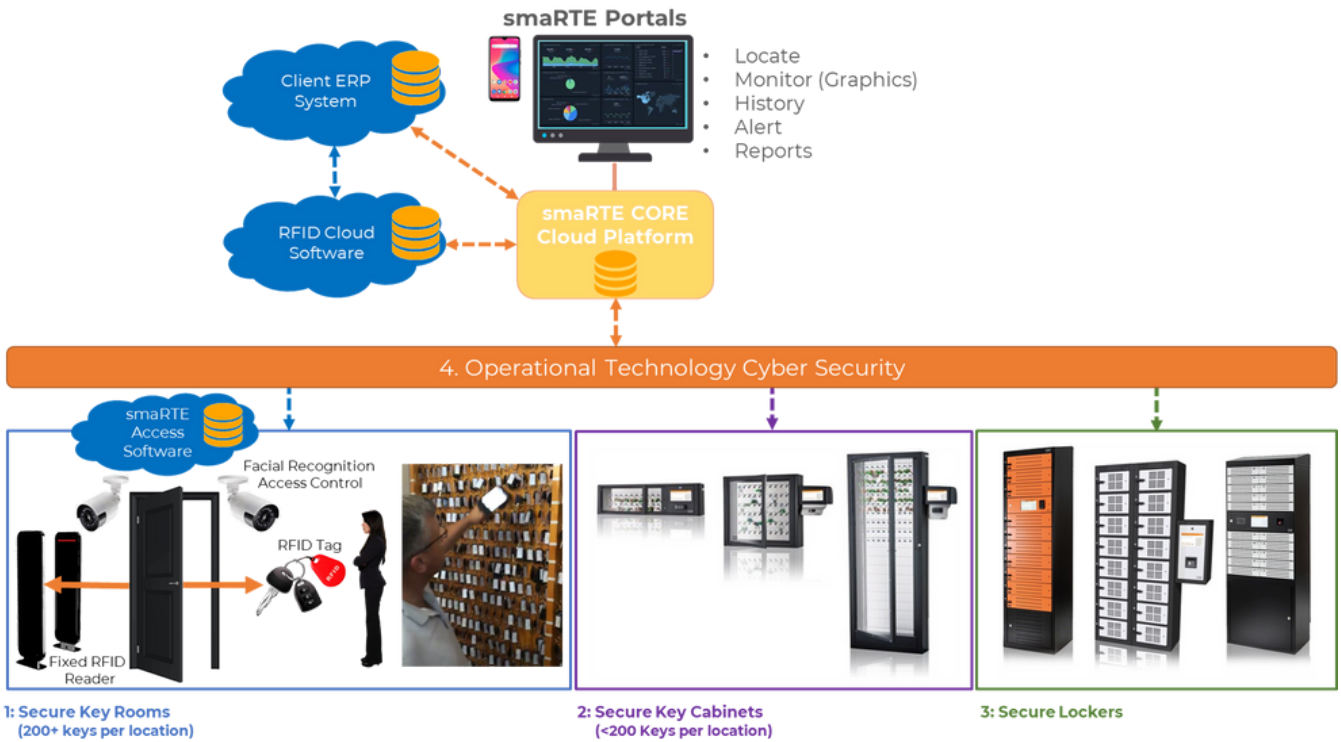

We also offer an intelligent key & device management room solution in cases where there are a large number of keys and devices that require secure management and control. This involves tagging each key and mobile enterprise device with an RFID or BLE tag to identify, control access to, and track each individual item. Our smarter Key Rooms can also be seamlessly integrated with our revolutionary smarter Access solution that employs Artificial Intelligence (AI) to manage and log access to each room.

SMARTE KEYS & LOCKERS

THE SMARTE SOLUTION:

THE OPERATIONAL BENEFITS:

- Improve shift start-up times and employee productivity by up to **50%**
- Increase employee accountability by up to **85%**
- Enhance auditability and security of the assets that the keys are protecting by up to **95%**
