"REAL-TIME OPERATIONAL EXCELLENCE"

FLEX SMARTER SOLUTIONS

FLAWLESS EXECUTION THROUGH DIGITAL MASTERY

We will help you to maximise your organisation's Return on operational Assets (RooA). This means that we enable you to operate your assets as effectively and efficiently as possible, while also ensuring they are healthy and safe. In this way, you reduce your operational costs and risks, becoming far more profitable as a result.

We can achieve this through one or more of our six "smarte solutions" that have been built using a combination of our leading-edge, digital technologies and are focused around our "Real-Time Operational Excellence (RTE)" mantra.

$$\frac{\text{Operating Income}}{\text{Average Operating Assets}} = \text{RETURN ON OPERATING ASSETS} \uparrow$$

SMARTE KEYS & LOCKERS

KEY & LOCKER MANAGEMENT FOR HEALTHCARE

Effective key & locker management is critical for healthcare

Operational assets are critical to the optimal delivery of first-rate healthcare services. Examples of these assets include:

- Healthcare facilities and equipment
- Bio-medical instrumentation, consumables, and supplies
- IT assets (Server Rooms, Servers, Desktop Computers, Laptop Computers, Tablets, Smartphones, Security Systems etc.)
- Vehicles
- And much more...

These healthcare assets are usually large in number and extremely diverse. Regulations are extensive, and the 24/7 environment creates a major challenge when attempting to track, monitor, manage and safeguard them.

It is therefore crucial for every healthcare facility to implement intelligent key & locker management solutions that will help to manage mission-critical keys, devices and operational assets more effectively. Ensuring only authorised people have access at specific times means that there is accountability, auditability, and security of the assets. This is essential to the safety of patients, staff, and contractors and the success of your operations.

Our Solution:

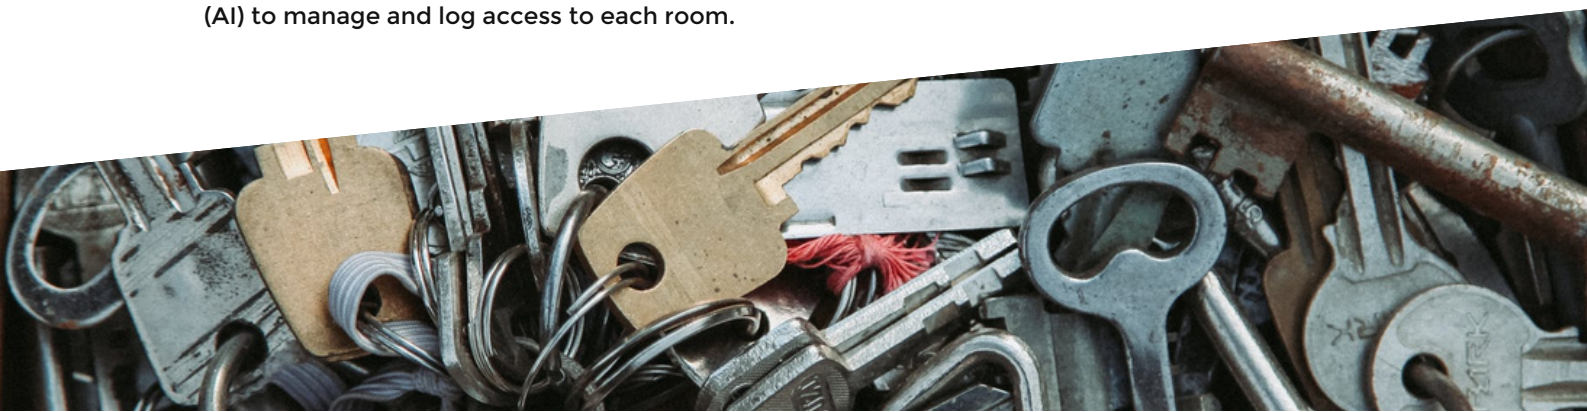

FLEX digital is the market leader in smart key, device and equipment management for healthcare facilities, using a combination of innovative digital technologies. Our smarTE Key & Locker solutions include:

1. Key Cabinets & Secure Lockers

We provide intelligent, integrated key and device management cabinets and lockers that give you complete control and peace-of-mind when it comes to your critical operational assets and mobile enterprise devices.

2. Secure Key Rooms

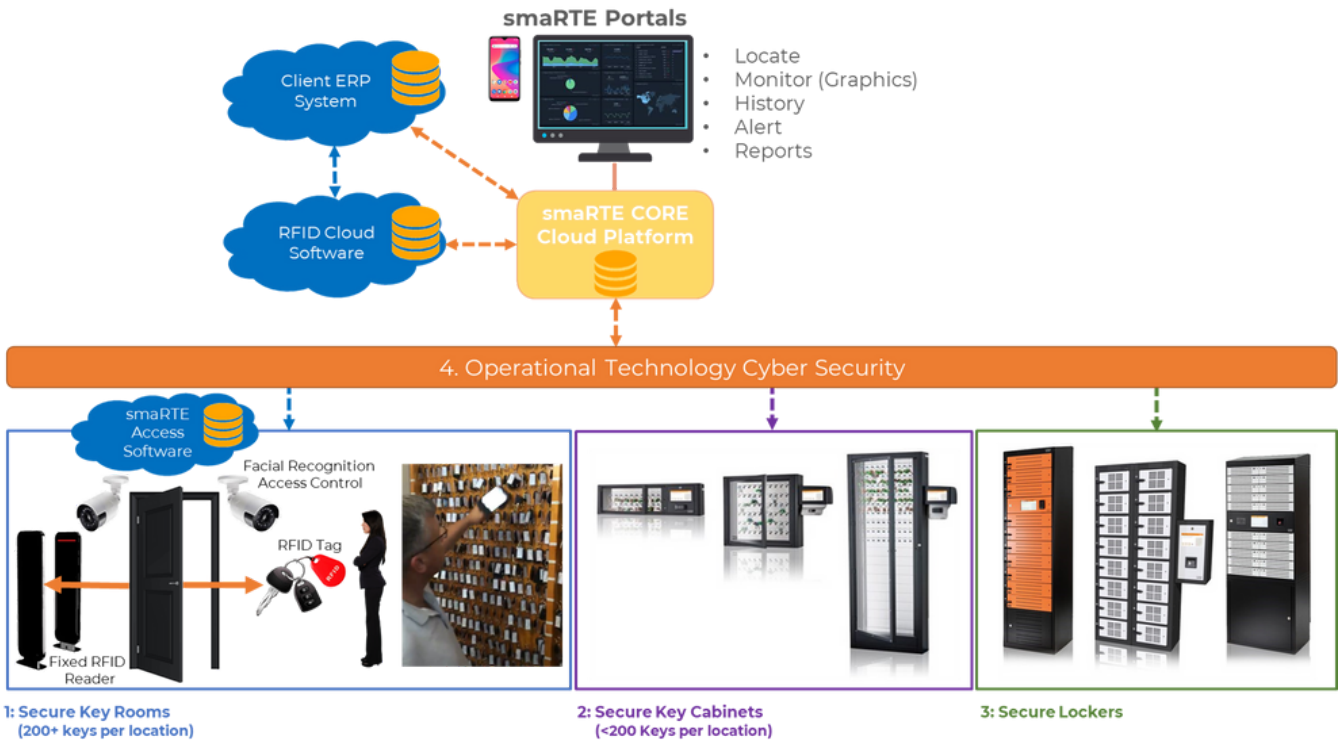

We also offer an intelligent key & device management room solution in cases where there are a large number of keys and devices that require secure management and control. This involves tagging each key and mobile enterprise device with an RFID or BLE tag to identify, control access to, and track each individual item. Our smarTE Key Rooms can also be seamlessly integrated with our revolutionary smarTE Access solution that employs Artificial Intelligence (AI) to manage and log access to each room.

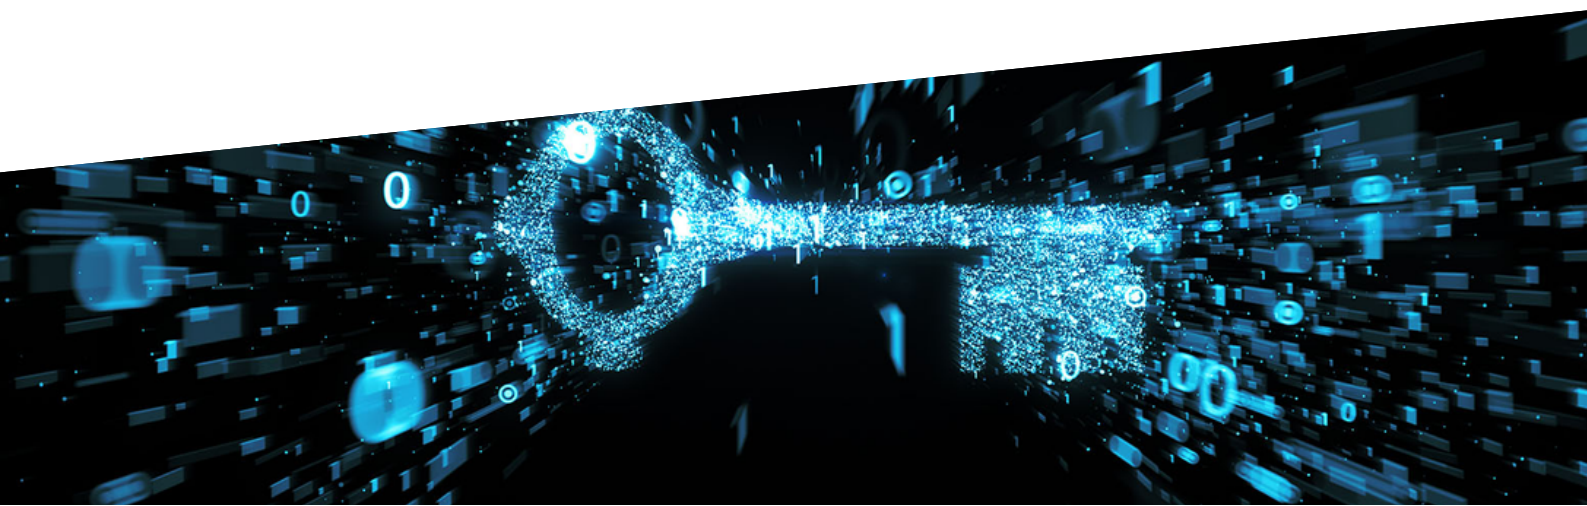

smarTE KEYS & LOCKERS

THE smarTE SOLUTION:

THE OPERATIONAL BENEFITS:

- Improve shift start-up times and employee productivity by up to **50%**
- Increase employee accountability by up to **85%**
- Enhance auditability and security of the assets that the keys are protecting by up to **95%**
